YUGOSLAV RAILROADS UNDER CONSTRUCTION

About 1,000 kilometers of new railroads have been built during the past 5 years in Yugoslavia. The 35-kilometer Markovac-Despotovac line in Serbia, which is under construction, will connect the Despotovac coal basin with the Nis-Belgrade line. Over one million tons of coal per year will be shipped on the new line. An 18-kilometer Gorce Petrov-Radusa line in Macedonia is also under construction.

The following map shows existing Yugoslav railroad lines, as well as lines which are now under construction, including the Sarajevo-Kardeljevo line (1), the Dobo-j-Tuzla line (2), the Markovac-Despotovac line (3), and the Gorce Petrov-Radusa line (4).
